## Featured Employer:

As a proud supporter of the brave men and women who have served in the U.S. Armed Forces, we are happy to facilitate an exclusive program that helps Sharp and its Authorized Dealers hire more U.S. veterans.

Sharp Electronics is a leader in office technology with cutting-edge products that help today's businesses be more productive. Our best-in-class products, including multi-function printers, software applications, interactive displays, and managed network services continue to evolve as technological advances change the way we do business. In cities across the country, there is a need for sales and technical personnel to represent the Sharp brand in this dynamic environment. If you are interested in becoming a lifelong learner, enjoy the fast-paced world of cutting-edge technology, and want a front row seat to the future, look no further. Join Sharp's nationwide network of sales and dealer representatives where a career in office technology is waiting for you.

## Available Positions Cont.

### General Manager

#### Johnson City, TN

This position is tasked with directing the entirety of business activities for a single mid-sized Sharp Business Systems entity, encompassing a specific geographic territory. Responsibilities include directing the efforts of all branch sales, service and operations employees, growing branch revenue, managing branch finances and reporting back to SBS and SEC management as directed.

### Facilities Management Customer Site Representative

#### Indianapolis, IN

The Function of the Facilities Management (FM) Customer Site Representative is to serve as the full time, on-site representative of Sharp Business Systems at a specific client location. Responsibilities include running print and copy jobs for users, checking equipment daily, and customer service.

### IT Services Sales Representative

#### Bellevue, WA

Reporting directly to the Branch General Sales Manager or Branch President, the Branch Managed Services Sales Representative is a dynamic Sales leader capable of closing IT outsourcing deals in the SMB (small, medium business) space while ensuring front line sales people are supported to grow the business.
